This Contract is made and entered into on Data Delivery, whose address is 6500 Walker ave. 90201 CA City of Bell and Data Delivery whose address is

6500 Walker Ave 90201 CA Whereas the service company is a company engaged in the business of servicing and maintaining networks and cabling and is willing to provide such services to Customer as per the terms herein.

Whereas the customer desires to have the service company furnishes maintenance on the following:

Now, therefore, in consideration of the mutual covenants and promises here in after set forth, the parties here to agree to the following.

- 1) Maintenance services.

Data D shall maintain and service the following list of equipment : 60 work stations 4 servers

And keep the equipment in good working order. Data D shall provide scheduled preventive maintenance during regular business with the schedule to be based on the specific needs of the equipment as determined by Data D. In addition, Data D shall provide unscheduled remedial

maintenance as and when needed. Both scheduled and unscheduled service shall include the following as deemed necessary by Data D

Regular services included in contract:

Additional services:

2) Excluded Services

Unless authorized in writing by the customer, Data D shall not be required to make any other services

If any Excluded services are authorized by the customer and Data D agrees to them, an additional charge will be made for the service.

3) Trained Employees

Trained personnel directly employed and supervised by Data D will perform all services required by the terms of this contract. The service Company agrees that each of its employees will be properly qualified and will use reasonable care in the performance of his or her duties.

4) Working Hours

(a) The services required of Data D under this contract, including emergency service, shall be performed during the regular working hours of its regular working days, consisting of Monday to Friday except as provided in (b) immediately below.

(b) If the customer requests that Data D perform any of its services at times other than during its regular working hours, then for the services performed outside the regular working hours (overtime) the customer shall be charged an additional price to compensate for changes in the cost of labor.

5) Contract price

(a) The customer shall pay Data D at the rate of: (price) for the regular services to be performed under this contract

(b) The amount specified in (a) above shall be adjusted annually to reflect any changes in Data D's cost of labor. 5% of the contract price shall be increased or decreased on each anniversary of the commencement date of service under (potato) this contract with the percentage of increase or decrease in the straight-time hourly cost (which means the straight-time hourly labor rate, including fringe benefits) for the within which the anniversary of the commencement of service under this contract falls as compared with the straight-time hourly cost for the month within which the commencement date of service under this contract falls.

(c) The amount specified in (a) above all shall be adjusted annually to reflect any changes in the costs of the parts, equipment, and materials supplied by Data D under this contract.(price to be determined depending on situation) of the contract price shall be increased or decreased on each anniversary of the commencement date of service under this contract by the percentage of increase or decrease in the costs of parts, equipment, and materials.(d) amounts due to Data D will be billed to the customer on a monthly basis and will be due and payable 14 days after.

6) Terms of contract

The term of this contract will commence on 5-21-13 and shall continue in full force and effect until its terminated. Either party, by giving 7 days written notice to the other party, may terminate this contract either at the completion of the first 5 years of service under this contract or at the end of any subsequent year. In any event, this contract shall be in effect for a minimum of 5 years.

7) Miscellaneous provisions

(a) Applicable law: This contract shall be construed under and in accordance with the laws of The United States, UK, and all obligations of the parties created under this contract are performable in any county.

(b) Parties bound: This contract shall be binding on and inure to the benefit of the parties to this contract and their respective heirs, executors, administration, legal representatives, successors and assigns as permitted by this contract.

What is Ethernet and why is it important

The Definition of Ethernet is a standard communications protocol embedded in software and hardware devices, intended for building a local area network. The Ethernet is where people gather up information from 1 device. Instead of searching it around your local area, you can search the information up on a Desktop which is a computer. People use the Ethernet for the own purpose like, Research, Business or for their own amusement.

Many businesses rely on the internet. Large companies like Wal-Mart and jc penny need the internet for communication between the suppliers of goods. Those that transport goods, and retailer. Items that not in stock can be looked up for availability and ordered as needed. With the internet, credit cards transactions are quicker to do. Valid credit cards numbers can be refined instantly thereby cutting down on fraud.

Institutions of learning both private and public rely on the internet. Application is now made online instead of on paper. Available library Books can be checked from campus to campus. Students extract information from the internet to aid in completion of assessments, Online ordering of books and supplies and aids in communication between students and class assigned groups.

The public in general can't seem to do without the internet. Pc's are located in many households. The internet provides ease of shopping for consumers. Communication between friends and family members are done on instant chat messaging like facebook or twitter and other blogs sites. Music uploads and downloads are thru the internet.

The internet is important to us for several reasons; we use it for home, school, and entertainment. The internet makes it possible to do certain things quick and easy that would otherwise take several days. If it was not for the internet we would probably be lost. The number one reason the internet is important to us because of school purposes. It makes life so much easier, because we can do everything at home. It makes school registration fast.
